WANT IN THE FAMILY.

Oklahoma and Indian Territory Take Steps Toward Statehood.

CONVENTION TO SETTLE A DISPUTE.

Politicians Want the Two Territories Admitted as Separate States While Business Men Prefer That Both Become One Commonwealth.

Muskogee, I. T., Nov. 14.—Single statehood for Oklahoma and Indian territory will be brought to a definite issue at the convention which met in the United States court room here Thursday afternoon. The date for the convention was set at Oklahoma City Oct. 22 and 300 delegates from each territory have come to fight out the issue. The supreme effort of the two territories to secure a single statehood form of government at the next session of congress will be made. The issue, it is believed, will be squarely divided between the political and the commercial interests of the territories.

Politicians, as a rule, it is conceded, are in favor of separate statehood. This view is opposed by the business men of the territories who want all avenues of trade and industry opened without restriction and who profess to believe that this end could not be secured in making two states of the territories. This, it is held, is especially true in Indian territory, whose undeveloped natural resources, they assert, are as rich as can be found in any state of the union. Among the first delegates to arrive the current feeling seemed strongly for single statehood for Oklahoma without delay, Indian territory to be considered later. Aside from speechmaking and the adoption of resolutions bearing on the subject the convention will likely provide funds to carry on a systematic campaign of education for statehood that shall finally reach congress.

Brazil Shuts Out Flour in Bags.

Rio Janeiro, Nov. 14.—The chamber of deputies passed a bill increasing the duty on flour imported in bags instead of barrels. There was a lively discussion over the measure. It was contended that flour imported in bags, is apt to contain dangerous germs, but this assertion was combatted vigorously. One member of the budget commission frankly declared that the object of the bill was to protect United States producers against the Argentine. After the vote was taken several deputies shouted: "The Yankees have routed the Argentines." Public opinion and the newspapers generally disapprove the new law as it is known that the flour from the United States arrives in barrels, while the Argentine product comes in bags. Newspapers of Buenos Ayres unanimously condemn the measure and remonstrances will be filed by the Argentine millers.

Army of the Tennessee.

Indianapolis, Nov. 14.—The Society of the Army of the Tennessee elected General Grenville M. Dodge, New York, president; General Andrew Hickenlooper, Cincinnati, corresponding secretary; Colonel Cornelius Cade, Cincinnati, recording secretary; Major A. M. Vandye, Cincinnati, treasurer. A banquet was had at the Denison hotel Thursday evening. The following were the toasts: "The President, response by Senator Fairbanks; 'Our Country,' Congressman Landis; 'Thirty-six Years After,' Chairman Wilson of Indiana; 'The Army of the Tennessee,' John B. Henderson, speaker of the house of representatives; 'War Time Memories and Music,' Mrs. John C. Black. James Witcomb Riley also read a poem.

Kentucky F. of L.

Lexington, Ky., Nov. 14.—The Kentucky State Federation of Labor has completed its business session. The convention closed with public speaking at night of Hon. C. J. Bronston of Lexington, President McGill of Louisville, J. D. Wood of Central City and others. It developed that the state organization of mine workers have spent \$150,000 in attempts to adjust mine troubles in Hopkins county. James McGill of Louisville was re-elected president and L. J. Kieffer of Louisville secretary and treasurer.

Lake Vessel Lost.

Port Huron, Mich., Nov. 14.—The steamer Emerald, from Alpena to Detroit, loaded with lumber and cedar, sprung a leak and became waterlogged in the heavy gale off Point Aux Barques. The life saving crew rescued the crew of nine, in a freezing condition. The men could not have held out much longer. No effort was made to save the steamer, which is drifting down Lake Huron in a waterlogged condition. The Emerald was owned by Thomas M. Ryan, of Buffalo.

William S. Weir Died Suddenly. Monmouth, Ill., Nov. 14.—William S. Weir, 66, head of the Weir Pottery company and president of banks at Monmouth, Alexis and Little York, died suddenly here.

RATHBUN IDENTIFIED.

Recognized by Officers From Arkansas. He Signs a Statement.

Jeffersonville, Ind., Nov. 14.—M. C. Rathbun was identified here by Deputy Sheriff Chichester and E. J. Gloeckner of Little Rock, Ark. The meeting between the prisoner and the Arkansas visitors, whose trip was for the purpose of identification, took place in Sheriff Rave's office.

"Hello, Rathbun," said Gloeckner, "don't you know me?" was the first salutation. "Yes, you're Gloeckner," responded the prisoner.

"Did you give that man the dope?" asked Gloeckner. "I am not guilty of the crime as charged."

"Did your wife know anything about your scheme?" "She might have thought about it."

"Why didn't she identify the body as not being yours?" "Can't tell. She's an excitable woman."

"What about the statement of Carrie Pryor that you wanted her to go into an insurance swindle with you?" "She is an enemy of mine."

At the conclusion of the interview Rathbun signed the following paper for the purpose of proving his identity in Little Rock:

"To Whom It May Concern: I am in custody in Jeffersonville, Ind., awaiting trial. I will send this by Al Chichester and E. J. Gloeckner."

A special grand jury will be summoned Monday to indict Rathbun.

Explosion in a Mine.

Pocahontas, Va., Nov. 14.—Fire broke out in the Baby mines, near here caused by defective electric wires. A great portion of the mine fell in and a terrible explosion followed. It is not known how many men were in the mines, but upon a fire alarm being given firemen and others rushed to the rescue of those who might be caught. Then another explosion followed. As a result 25 men are badly injured, many fearfully burned, but no dead so far have been found. The mines are still on fire and other explosions are likely. The fan was stopped and all that can be done is being done to put out the fire and rescue those entombed. It is the first explosion here since the disaster about 15 years ago in which almost 100 men were killed.

Veteran Mustered Out.

New York, Nov. 14.—Brigadier General Henry L. Robinson, 70, who retired from the army a number of years ago, and in recent years was a customs inspector, is dead at his home in this city. He was born at Birmingham, N. Y. Soon after the civil war broke out he was appointed assistant quartermaster with rank of captain and being a railroad man was assigned to be purchasing and disbursing officer of the military railroads. In 1866 he was mustered out. While he held the office he disbursed nearly \$19,000,000. When President Lincoln was assassinated he had charge of the transportation of the body to Springfield, Ill. He was a brother of General John C. Robinson, who was lieutenant governor under Gov. Dix.

Visit of an Indian Princess.

New York, Nov. 14.—Princess Sophie Bamba Dhuleep Singh arrived here Wednesday from Europe. On the way over she spoke of visits she intended to make at Newport. Beyond this the steamship authorities know nothing further of the movements of this princess of India, whose father, the Maharaah of Lahore, was once owner of the famous Koh-i-noor diamond. Her brother, Prince Dhuleep, has visited New York many times and has been entertained in London and New York. He set London society agog in 1898 by marrying Lady Anne Coventry. His marriage was the first on record of an Indian prince marrying into British nobility.

Storli's Petition Denied.

Boston, Nov. 14.—The habeas corpus petition of Luigi Storli, the condemned murderer has been denied by the full bench of the Massachusetts supreme court. The petition was based upon the claim that under the electrocution act of 1898, Storli was given certain vested rights while awaiting the execution of his sentence as to the exact manner of his confinement, which were violated by the warden in changing Storli from one cell to another. The court holds that the statute on which the petition is based is not intended to confer any rights but established a mere matter of prison discipline.

Kenyon's Endowment.

Laporte, Ind., Nov. 14.—The Rt. Rev. John Hazen White of the Episcopal diocese of Michigan City made the announcement to the diocesan convention that he had succeeded in adding \$100,000 to the endowment of Kenyon college in addition to a gift of \$50,000 for a new dormitory.

Prima Donna Divorced.

London, Nov. 14.—Lillian Decima Moore, the prima donna, was granted a divorce from Cecil Walker Leigh on grounds of cruelty and adultery. She was married to Leigh in 1894 while making a tour of the United States.

THE MOSQUITO INDIANS

Misunderstanding Arising as to the Matter of Their Protection.

ENGLAND RELINQUISHING CONTROL.

Instead of Acquiring New Privileges Great Britain Is Expected to Surrender Jurisdiction Entirely to Nicaragua—Washington News.

Washington, Nov. 14.—The statement in a Managua dispatch, credited to Mr. Paget, the British secretary of legation there, to the effect that the United States has approved the claim of Great Britain to be recognized as a protector of the Mosquito Indians, has attracted attention of diplomats here.

An inquiry indicates that there is danger of a complete misunderstanding of the matter. The British government is endeavoring to negotiate a treaty with Nicaragua which will enable the British to retire from all claim of jurisdiction on the Mosquito coast, leaving Nicaragua in full sovereignty there, with due guarantees for the proper treatment of the Indians hitherto under British protection.

The United States government has taken no action in the matter, but it is, of course, to the interest of this country that some such absolute recognition of the sovereignty of Nicaragua should be made and the pending questions arising out of the treaty of Managua between Great Britain and Nicaragua be gotten out of the way.

The fact is that, so far from acquiring any new privileges on the Mosquito coast, the British government is relinquishing the right it now enjoys. The treaty of Managua, negotiated about fifty years ago between Great Britain and Nicaragua, imposed upon the English government the duty of protecting the Mosquito Indians. Great Britain is trying now simply to have the Nicaraguan government enter into obligations to care for the Indians.

Cable and Canal Bills.

Washington, Nov. 14.—Congressman Hepburn of Iowa, chairman of the insular and foreign commerce committee of the house and Congressman Sherman of New York, of the same committee had a long conference with the president about isthmian canal and Pacific cable legislation. As a result of the consultation they announced that it was their purpose to press legislation on both subjects at the earliest possible moment. The canal bill which passed the house at the last session will again be introduced in substantially the form in which it was passed last winter. No delay is anticipated in the committee, as the whole subject has been canvassed thoroughly. Colonel Hepburn told the president that the bill undoubtedly would have a large majority in the house. The cable bill will be identical with the measure reported from the committee during the last congress. It provides for the laying of the cable by a private corporation under a contract with the postmaster general, with an alternative provision for the building of the cable by the government if no satisfactory contract can be made. It is understood that the president concurred in the proposed program.

New Navy Yard.

Washington, Nov. 14.—The president signed an executive order creating a naval reservation of a large tract of land just acquired by the navy department at Olongapo, on Subig bay, Luzon. The department will proceed to construct at this point a navy yard and station of the first order, patterning the plans generally after the Mare Island navy yard. As soon as this is properly equipped a large part of the work now done at the Cavite navy yard will be transferred to Olongapo. It is a part of the project to ship the Havana floating dock to Olongapo to supply immediate docking needs, and until permanent docks can be constructed.

Insular Appointments.

Washington, Nov. 14.—President Roosevelt announced that in making civil appointments in the insular possessions of the United States he would adhere to the principles of the civil service. He declared this policy to Clinton Rodgers Woodruff of Philadelphia of the National Civil Service Reform league. Mr. Woodruff is chairman of the committee on dependencies and called to ascertain what the president's policy would be.

Davis Case Before the Grand Jury.

Indianapolis, Nov. 14.—The grand jury of the United States court has begun to consider the most important case that will come before it during the present session, that of Richard Davis, former cashier of the Peoples' National bank of Washington, Ind. The department of justice at Washington, D. C., directed that action be brought against Davis, although he made good the losses to the bank by turning over real estate and other property to the concern.

ON OPPOSITE SIDES.

Two Former Governors of New York Argue Mollineux Case.

New York, Nov. 14.—Two former governors of New York, David B. Hill and Frank S. Black met in argument in the court of general sessions on the motion to quash the indictment charging Roland B. Mollineux of murdering Mrs. Catherine J. Adams by sending poison through the mail. Mollineux was once convicted and sentenced to death, but the court of appeals gave him a new trial for error on the part of the trial courts.

Mr. Hill, associated with the assistant district attorney, James Osborne, opposed on the part of the state the motion to quash. Mr. Black joined with Weeks, Battle and Marshall and former District Attorney M. K. Olcott, in pressing the motion in behalf of the prisoner.

General Edward Mollineux, father of the prisoner, was in court. A great crowd filled the court room.

DISASTER ON THE DEEP.

Ship Destroyed by Fire and Explosion. Probably an Oil Carrier.

Philadelphia, Nov. 14.—Captain Ferlan of the Australian steamship Etelka brought to this port news of a marine disaster which occurred Nov. 8. Captain Ferlan states that his attention was drawn to what he believes to have been a burning steamship. The craft was invisible but the glare of the flames could be plainly seen. The course of the Etelka was changed, but before she could reach the burning vessel, an explosion occurred and the steamship was torn to pieces. The Etelka cruised about in the vicinity of where the fire occurred but could find no trace of any of the crew, which he thought might have taken to small boats. Captain Ferlan says that just before the explosion flames shot high in the air, which leads him to believe the vessel was probably an oil carrier. It was impossible to identify the ship.

New Use For Tough Beefsteak.

Providence, Nov. 14.—Light from decayed meat is the latest discovery which may startle the scientific world. Professor Gorham of Brown university claims to have succeeded in extracting from an overripe porterhouse steak sufficient illumination to enable him to take photographs of laboratory apparatus. Professor Gorham is seeking to find an artificial light in which the element of heat is not contained, and believes he is on the road to definite results. Professor Gorham is connected with the bacteriological department of the university.

Ohio Men Interested.

York, Pa., Nov. 14.—An interest in the York Wallpaper company has been purchased by J. H. Findlay of Cleveland, I. B. Cameron, state treasurer of Ohio and a resident of Columbus; G. V. Sharp of Salem, O.; R. N. Chamberlain of East Palestine, O.; and P. J. Gilbert of Sharon, Pa. The officers are: President, J. H. Findlay; treasurer, I. B. Cameron; secretary, P. J. Gilbert; assistant treasurer, Charles H. Stallman of York. The new organization will take charge at once.

Dispute Ended in Murder.

Vancouver, B. C., Nov. 14.—J. Girouard, government registrar in the Klondike, was shot and killed in Dawson, according to a brief dispatch from that city. A man named Lord, an Eldorado Creek miner, with whom Girouard had business dealings, is said to have fired the shot. The men had a dispute regarding some mining property.

Kentucky Legislature.

Frankfort, Ky., Nov. 14.—The official count of the vote at the last election shows that the Democrats will have 60 majority on joint ballot in the general assembly as follows: House of representatives, Democrats 73, Republicans 27. Senate, Democrats 26, Republicans 12. On joint ballot, Democrats 99, Republicans 39, majority 60.

Foraker's Daughter Florence Wed.

Cincinnati, Nov. 14.—Florence, daughter of Senator Joseph B. Foraker, and Randolph Matthews, an attorney, were married Thursday afternoon in the Church of the Advent on Walnut Hills. Governor Nash was among the guests.

Was a Temperance Worker.

Richmond, Mo., Nov. 14.—Colonel George W. Trigg, 55, a well known temperance advocate died after a lingering illness. Colonel Trigg was formerly president of the Missouri Press association and was prominent in politics.

Ohio Postoffice Looted.

Warren, O., Nov. 14.—Safe blowers secured \$100 cash, \$200 in stamps and funds to the value of \$2,500 at the Rock Creek postoffice. The safe was blown to pieces.

Gift For Indiana College.

Terre Haute, Ind., Nov. 14.—B. A. Palmer, a retired banker of New York, has given \$30,000 to Union Christian college, located at Merrim, Md.

Whirl Was Too Swift.

London, Nov. 14.—A receiver has been appointed to settle the affairs of "The Whirl of the Town" theatrical company.

IMPRISONED IN A HUT

Miss Stone and Mme. Tsilka Located in Southern Bulgaria.

LATEST STORY ABOUT THE CAPTIVES.

Report That Efforts Are Being Made to Redeem the Ransom—Casualties of England's Gale—Danes Talking Retaliation—Foreign News.

Sofia, Nov. 14.—Miss Ellen M. Stone and Madame Tsilka, the captives of the brigands are now said to be occupying a hut in a village of southern Bulgaria to which they are closely confined.

There is reason to believe that a conference of the secret committee held at Dubnitsa, favored a reduction of the ransom demanded and as soon as it comes within the range of the funds at the disposal of Consul General Dickinson he is ready to seal the proposal.

Photographs of ex-President Sarajoff of the Macedonian committee have been circulated among the troops on the Turkish side of the border in consequence of the belief that he is now with the brigand bands in the vicinity of the frontier.

Lifeboat Lost.

London, Nov. 14.—The loss of a lifeboat and 11 of its crew near Yarmouth heads the list of Thursday's wrecks by the continued gale. The lifeboat was on its way to the rescue of a distressed vessel when it was struck by a great wave and capsized. The crew was imprisoned and only three succeeded in making their escape. Innumerable minor casualties continue to be reported on all the coasts of the United Kingdom, marking the storm as the most disastrous that has occurred in many years. Snow is falling in many parts of the country. The Norwegian bark Er-ratic of Christiansend, was wrecked in the vicinity of Saltburn and eight members of her crew drowned. An incomplete list of persons who lost their lives by drowning during the storm already aggregates over 160.

Denmark May Retaliate.

Copenhagen, Nov. 14.—The government of Denmark is considering the most effective method of retaliating against the United States, should the diplomatic representations now being made in behalf of the Danish chocolate exporters fail. The exporters allege over valuation of chocolate by New York customs officials. The exporters deny that Denmark pays a bounty on chocolate and claim that Copenhagen should be accorded the same treatment given other free ports. It is pointed out that Denmark will suffer little loss in case of retaliatory duties since her exports to the United States are only \$750,000 against America's \$20,000,000 exports to Denmark.

Want Brigands to Catch 'Em.

Paris, Nov. 14.—The Turkish government is much exercised over the report that two American girls named Delaney and Stetson, have started for Turkey with the idea of getting captured by brigands in a manner similar to the case of Miss Ellen M. Stone. The Turkish legation here has received a dispatch from the officials at Constantinople to investigate the matter as it is thought that they pass through Paris. A dispatch from Philadelphia Nov. 2 announced that two girls, Kate Boye and Delaney, had started for Macedonia with the idea of getting abducted by brigands. Possibly this was the origin of the porte's perturbation.

Miss Wackeman Improving.

London, Nov. 14.—The examination of Miss Vanderbilt Wackeman of New York, who was taken to St. Giles infirmary as a wandering lunatic, was held privately at the infirmary before a justice of the peace. The report of the investigation has not been authorized fully, but the marked improvement leads to the belief that she will be handed over to her relatives so soon as they are able to arrange for her care. The authorities have received communications from her relations.

African Tribes Clash.

Tangier, Nov. 14.—Fierce fighting occurred between the Benmisara and Mesmuda tribes, resulting in the killing of many on both sides. The Benmisares razed a number of villages on the plains and carried off 18 Mesmuda girls. They had been threatened by the sultan with punishment for abducting a Spanish boy and girl and took this method of demonstrating that they were prepared to fight any force that might be sent against them.

An Aged Circuit Rider.

Bloomington, Ill., Nov. 14.—Rev. Henry Bowman, perhaps the oldest Methodist preacher who was active in the pulpit up to the time of his death, died here. He preached 77 years and became famous throughout the south for abolition utterances during the war. Since 1868 he has been a circuit rider throughout the country.

PRESIDENT ROOSEVELT has warned the new Collector at Louisville that he must rigidly observe the civil service law. The President is a warm advocate of the system, and has extended it to include the 200 employees of the executive branch of the rural free delivery service. The 6,000 rural free delivery carriers throughout the country will be taken in at some later date.

COST OF SMALL-POX.

The forthcoming report of Secretary McCormick, of the State Board of Health, claims that the actual cash expended from county and municipal treasuries on account of small-pox was \$308,271, to say nothing of the expense to individuals. The reported loss from interference with business was \$734,000. "This does not include," says the Secretary, "the great loss to transportation companies from interference with travel and commerce. This latter item is only an aggregate of estimates, many boards not reporting upon this point, and is only given for what it is worth."
 "These are the bare, naked figures," continues the Secretary, "in regard to the most expensive and widespread epidemic from which our State has ever suffered, and covers an experience which might have been easily avoided had heed been given to the united voice of the medical profession and the iterated and reiterated warnings of State, city and county health officials urging universal vaccination."

DEBOE'S BLUFF.

It Didn't Work With President Roosevelt. Made a Plea for Sapp While He Held Latter's Resignation.

[Washington Correspondence Enquirer.]
 A story is told in connection with the removal of Collector of Internal Revenue Sapp, of Louisville, which illustrates the promptness with which President Roosevelt is prepared to act and the inflexibility of his character.

It had been decided some time ago that Sapp was to be removed on the recommendation of the Civil Service Commission, which had made two reports to President McKinley on this case. President Roosevelt, however, was desirous of selecting Mr. Sapp's successor before he removed him, so the removal and the new appointment could be announced simultaneously.

For the purpose of making a "bluff" Senator Deboe, who has been Sapp's protector, traveled to Washington with Mr. Sapp's resignation in his pocket. After making a strong plea to the President to retain Mr. Sapp, the Senator pulled out the resignation. Without a moment's delay President Roosevelt took the resignation from his hand and called an stenographer. Handing him the paper, he said: "Accept this resignation by telegraph immediately and place the Chief Deputy in charge." He then bowed Senator Deboe politely out of the room.

Little Sympathy to Republicans.

[Washington Post, Ind.]
 There will be little sympathy for the Kentucky Republicans. The sort of statesmanship that makes war on women who hold small postoffices can easily be spared.

A Complete Vindication.

[Wheeling Register, Dem.]
 The result of the election in Kentucky is a complete vindication of the much-maligned and misrepresented Democracy of that State by the people themselves—and it cannot be attributed to a Goebel law, either.

How They Hit the Floor.

[Courier-Journal.]
 The report is that when the President notified the Kentucky Warwicks that they must agree within twenty-four hours upon a man for Collector for the Louisville district "he arose and hit the cabinet table a thump with his fist that could be heard out in the lobby." The thump, however, was nothing in comparison with the thuds with which several of those Warwicks a little later hit the floor.

Lonely Homes

A home is never complete without children. Yet many homes are childless. Many wives are desolate for the lack of a child to love. Their lives are aimless—void of the high motives of motherhood. While barrenness is causing incalculable sadness and sorrow, it exists in most cases on account of some little female trouble, which Wine of Cardui would speedily set right. This pure Wine regulates the disordered female organs by building up the worn out nerves and regulating the menstrual flow. It restores the fallen womb to its proper place. By strengthening the generative organs, it makes pregnancy possible where barrenness exists. You can depend on

WINE OF CARDUI

Suffering women all over the land have been depending on it for seventy-five years. No more convincing proof can be given than the testimony of Mrs. Benson, who is only one of thousands of women to whom Wine of Cardui has brought a permanent cure. Many cases of miscarriage—that trouble which robs mothers of their hopes—have been avoided by timely use of the Wine. You are asked to try Wine of Cardui and Theodor's Black-Draught, its companion medicine. Nine out of ten cases of female trouble, barrenness included, yield to them. All druggists sell \$1.00 bottles of Wine of Cardui.

Last May I had a miscarriage, which was followed by flooding. I read your Almanac and my husband got me a bottle of Wine of Cardui and it stopped my flooding and restored my fallen womb to its place. Now I am cured after taking three bottles and have another to take which I got this morning. I am expecting to become a mother and Wine of Cardui will be my doctor.

HANDSOME HOME BURNS.

The Residence of Mrs. Matilda Stewart Above Aberdeen Destroyed by Fire Thursday.

The handsome country home of Mrs. Matilda Stewart, above Aberdeen and nearly opposite the Maysville fair grounds, was destroyed by fire shortly after dinner Thursday. A strong wind was blowing and the family were unable to save anything, losing all their wearing apparel except what they had on at the time.

The building was a large two story frame, and had just been improved and repaired. The loss amounts to about \$3,000, and falls especially heavy on Mrs. Stewart as she had no insurance. She is an aunt of Mr. Frank Ellis of the Bee Hive and also a relative of Dr. A. N. Ellis.

The fire originated either from a defective flue or from sparks falling on the roof.

When Abraham Lincoln was just coming into prominence as a lawyer in Illinois the war with Mexico had recently been fought and the difficulties that culminated in the Civil war were just beginning to assume shape. The time was an important one in the history of the United States. In Charles Klein's new play, "Hon. John Grigsby," in which Frank Keenan is starring, those stirring days are reviewed accurately and with dramatic force. The play, one of the very best American works ever written, has already won a very high place in popular esteem. Mr. Keenan will be seen here to-morrow night in this play.

River News.

The steamer M. P. Wells was attached through the United States Court at Cincinnati for several standing bills.

The veteran river editor, Capt. Cons. D. Millar, aged seventy-four years, is lying at the point of death in the Old Men's Home, Cincinnati.

As a result of this week's rain, the river is rising at Pittsburg. A stage of five or six feet is expected there to-day. River men confidently look for a coal boat stage in a week or so now.

All boats at Pittsburg are being put in readiness to come out as soon as there is sufficient water. There is enough coal in the harbor and within easy distance of Pittsburg to allow the coal companies to send out one of the largest shipments in the history of the river.

Captain Paris Brown slipped up on Captain Schriver, of the Cando, and chartered the boat. Schriver had built up a good trade in the Higginsport and Cincinnati line, and will be without a boat now until the river rises so he can bring down his new packet, the Helen Gould.

The steamer M. P. Wells will be sold at the foot of Main street, Cincinnati, at 11 a. m. on the 21st inst. United States Marshal Fagin will conduct the sale. This step was taken in order to satisfy the creditors. Captain Edgington is the owner of the vessel and he has a number of debts hanging over him. One of his cooks two days ago brought suit in the United States Court for \$83 for wages claimed to be due. The boat was attached. This was only one of a great number of claims against the boat. All claims will be settled after the sale upon the best basis.

A lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety-nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood making glands, cleanses the system from the poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.
